

Agenda

CLF Spec Revision Virtual Working Group

Tuesday, June 25, 2019

CLF Workspace: https://aces.mp/CLF_SPEC_VWG

Dial in:

To join meeting from your computer, tablet or smartphone:

<https://global.gotomeeting.com/join/241798885>

You can also dial in using your phone.

United States: +1 (669) 224-3319

Access Code: 241-798-885

Reminder: You can use the chat feature during the call for any comments that you want captured but that don't need to be cut in verbally.

VWG Goal(s):

- Incorporate the list of required changes produced by the Spec Review group into a new version of the CLF specification.

Expected meeting outcomes:

1. Working group members leave with an understanding of the direction of the project, how work will occur, and how they can contribute.
2. The items deferred from the spec review group are assigned for resolution to be worked into the new specification.
3. Working group members understand where to find the current document and how to comment on it.

Related docs (available on CLF workspace):

- "CLF Spec Revision Requirements.pdf"
- "Academy S-2014-006.pdf"

Agenda Items:

1. Introduction
 - Attendance/roll-call for "dial-in only" participants (not logged in online)
2. Review of presentation to the TAC meeting
3. Overview of working group status and processes
4. Revisit the deferred items from the spec review group and establish plan for resolution
 - Exponent node – options for handling of values below zero – need requirements
 - ColorSpace node – proposal for "structured string" format
 - IndexMap > 2 – need guidance on how to achieve complicated IndexMap using a halfDomain LUT
5. Review of document drafting process (Scott)
6. Action item review, next steps
